

All Materials will be purchased in one lot and dispersed to the teams.

Slight variations in dimensions are OK.

The headboards will have the plywood rabbeted in the back of the frame. Joinery at team's discretion.

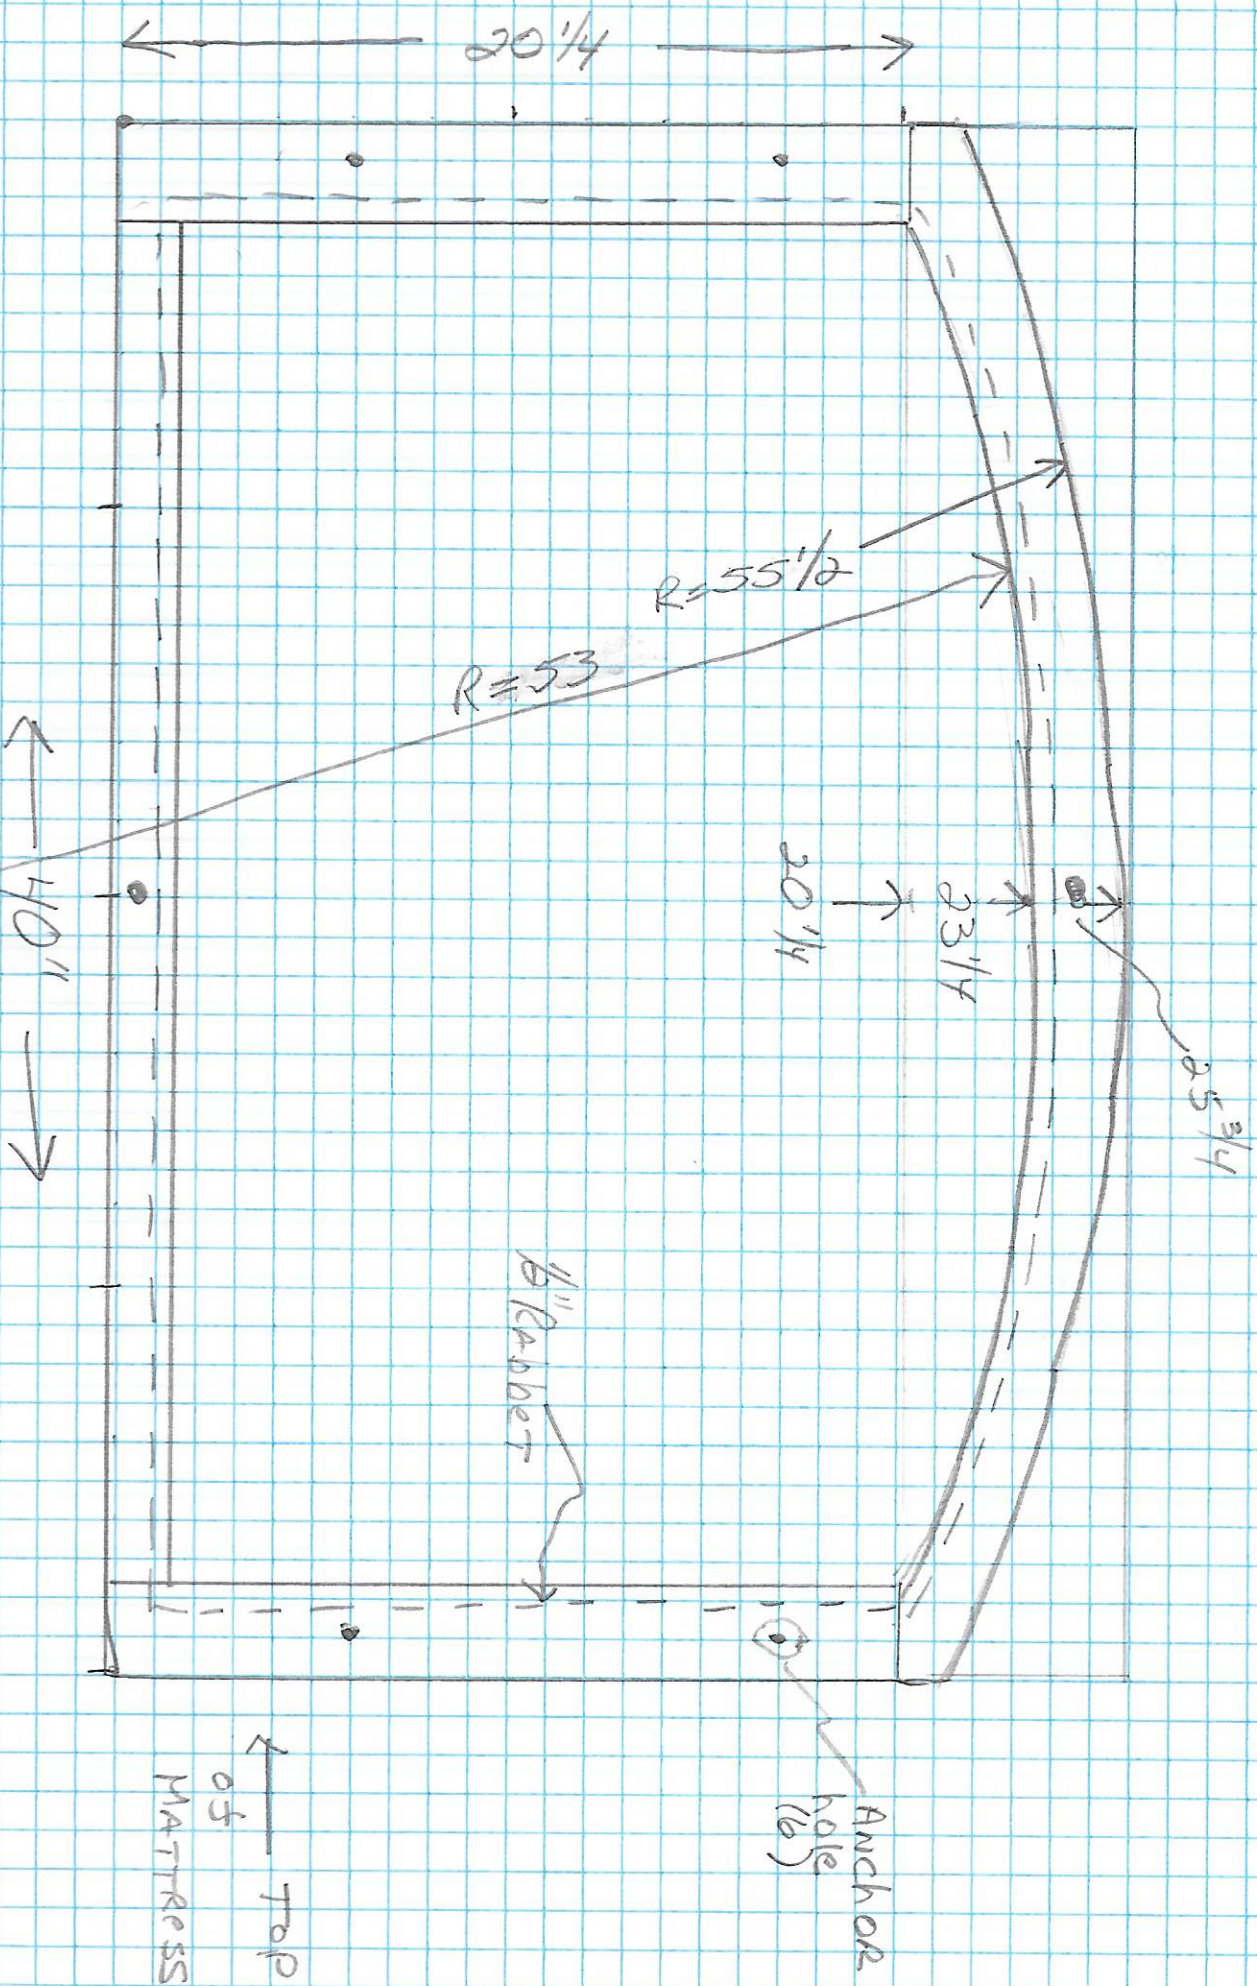

Paint provided should be enough for at least one coat primer and two coats of topcoat. Also paint dome of plugs; to be glued in to cover screw holes after installation.

Call Lee Owens to coordinate a time for installation; they do not all have to be done at one time.

Take pictures and send to Jim Landry.

Thanks for volunteering your time and skills for this project.

TWIN SIZE HEADBOARD

TWIN SIZE HEADBOARD MATERIALS LIST

5mm plywood 36 x 22³/₄

1 x 2 35" (+ TENONS)

1 x 3 (2) 20¹/₄ (+ TENONS)
