TOP view

A = WINE BOTTLE DIAMETER
+ 1/8" to 1/4"

$$B = A + 3/4.$$

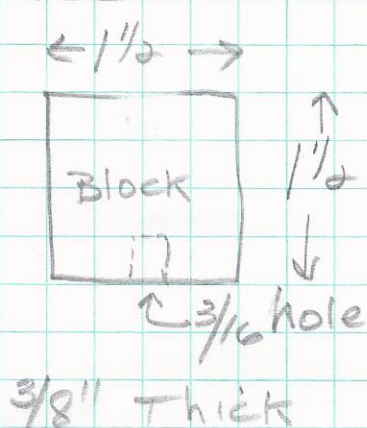

FRONT/SIDE view

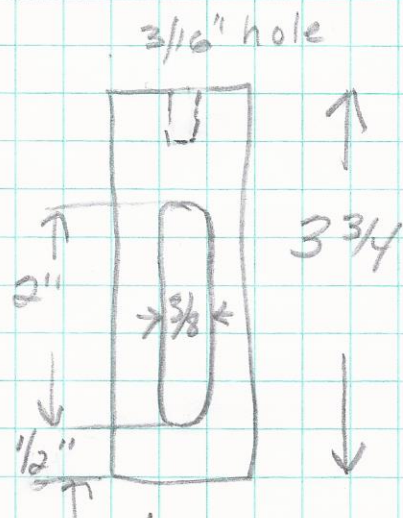

OPTIONAL FRONT/SIDE view

PART #1

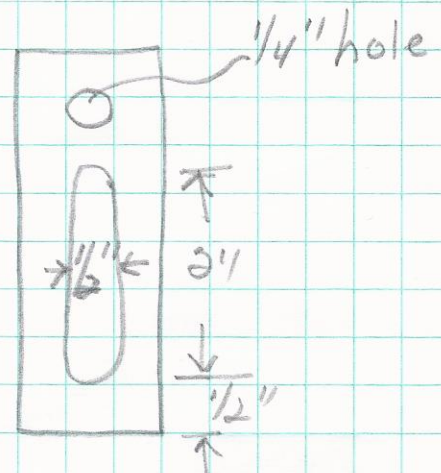

3/8" Thick

Block

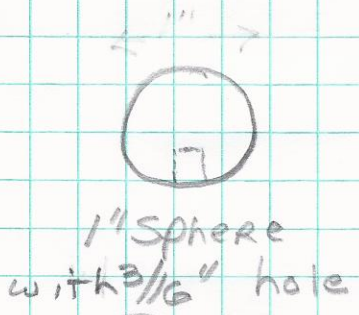

3/8" Thick, 1" wide

PART. C

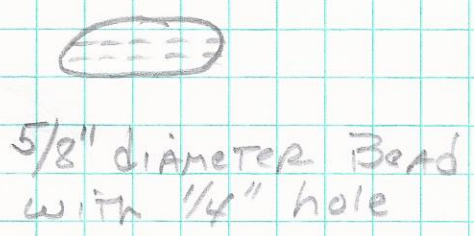

3/8 Thick, 1" wide

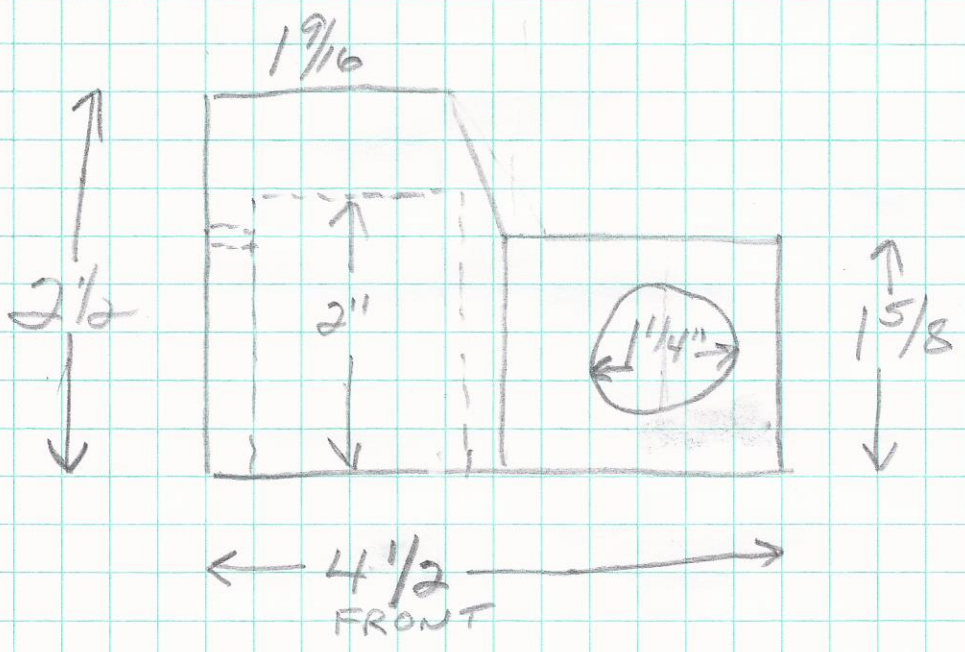

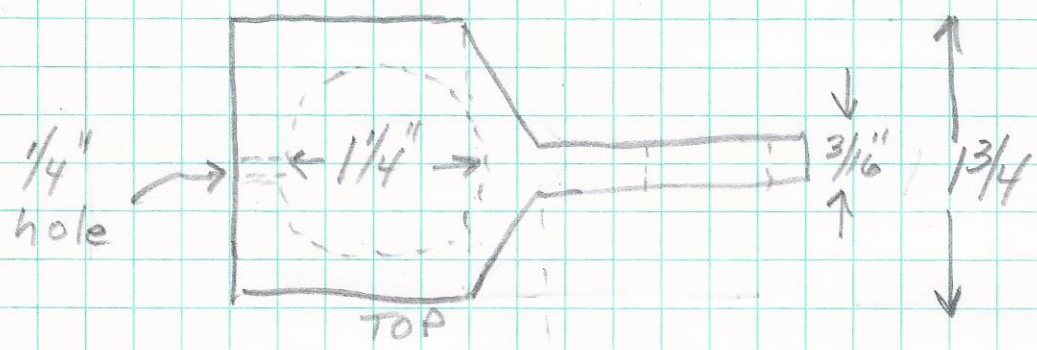

PART D

PART B

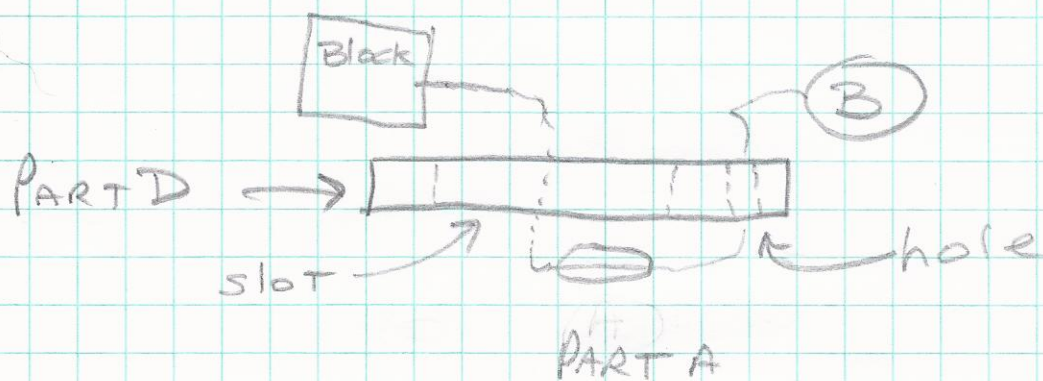

PART A

PART E

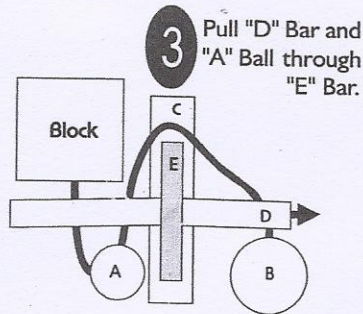

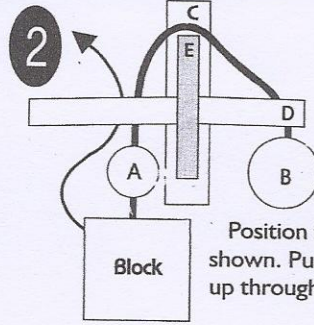

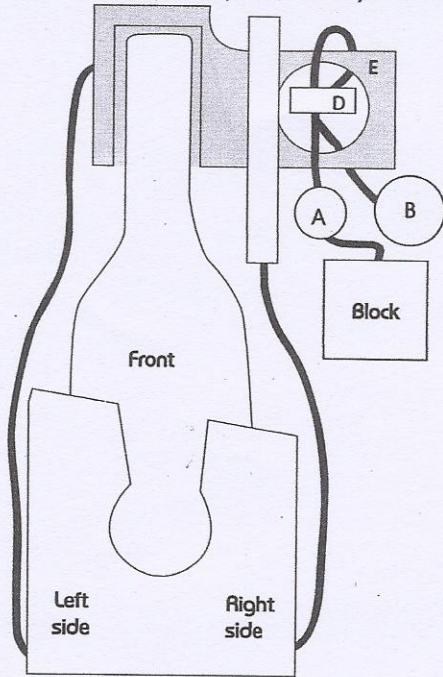

DIRECTIONS TO BUILD

1. Glue $\frac{3}{16}$ " Rope, About 32", to hole in PART C. Thread rope through hole in bottom of PART #1 & into $\frac{1}{4}$ " hole in PART E. Tie KNOT in $\frac{3}{16}$ " Rope inside PART E.
2. With Second piece of $\frac{3}{16}$ " rope, 12" long, glue one end into $\frac{3}{16}$ " hole in PART B. Then thread rope through PARTS A & D as shown below and glue other end into $\frac{3}{16}$ " hole in Block.

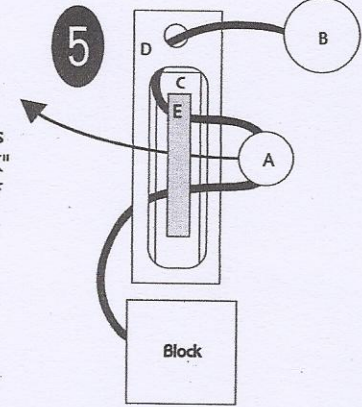

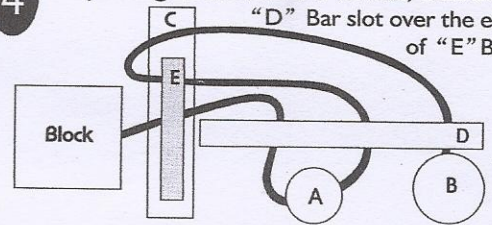

SOLUTION SHEET

- 1** Place the puzzle in front of you as shown. Then, turn the entire unit clockwise so that the puzzle parts are at eye level.

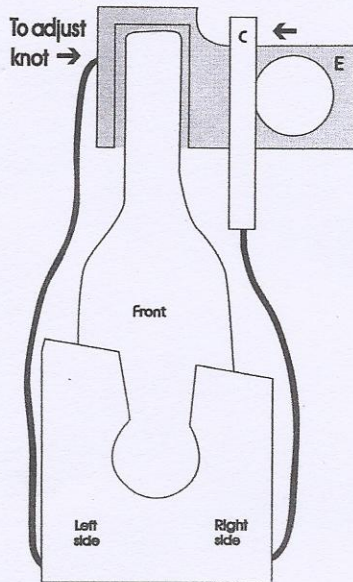

- 4** It should now look like this. Grasp "D" Bar in your right hand, stand it vertical, then slide "D" Bar slot over the end of "E" Bar.

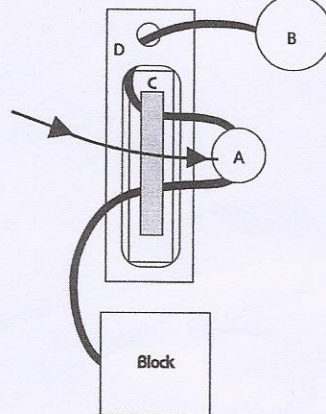

It should now look like this. Push "A" Ball through "E" Bar, then slide "D" Bar off the end of "E" Bar. Pull "C" Bar towards you to set the bottle free. **CHEERS !**

TO LOCK UP THE BOTTLE

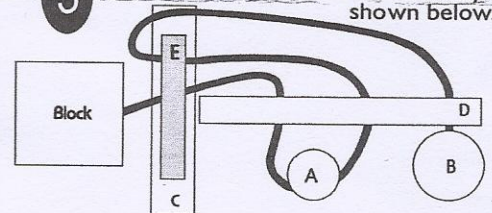

- 1** Place the bottle in the puzzle base, place the "E" section cap on top and slide "C" Bar over "E" Bar end as illustrated below. To adjust the height of the puzzle, alter the length of the rope by moving the knot inside "E" section cap.

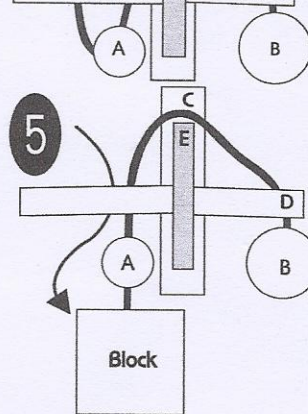

- 2** Slide "D" bar slot over the end of "E" Bar and arrange puzzle parts as shown below. Make certain the rope does not become tangled.

- 3** Slide "D" Bar and balls of "E" Bar. Position it horizontally as shown below.

- 4** Hold "D" Bar in your right hand. Pass "A" Ball through "E" Bar opening. Then push "D" Bar halfway through as shown.

Pass "BLOCK" down through "D" Bar slot. Your bottle is now locked into position
