Executive Committee meeting after the club meeting

Have decided to create a Club historian. If you are interested contact Bob.

Club is investigating the purchase of an audio system. The executive committee has authorized the spending of up to \$600.00 for the system. Jim Landry and Brian Fitzgerald are looking into the options.

A committee has been created to study the direction of the Club in the future: Should the size of the club be limited or not, should members meet certain requirements to be considered in good standing (attend a minimum number of meeting, participation in Service Projects or Education Outreach events, etc.). The findings of the committee will be presented at the January meeting. The direction of the club and membership requirements will be decided by a general membership vote at the meeting. If you have an opinion on this please make sure you attend the January meeting.
